

[Back to Home Page](#)

“Just 4 Fun” is a monthly “Entertainment Page” with Brain Teasers, Quotable Quotes, Puzzles, Points to Ponder, Optical Illusions, and anything else we’ve found interesting or entertaining. If you have something you would like to contribute, e-mail us at info@c2c-solutions.com and if it is “good”, we will post it in an upcoming month. If you “give-up” or can’t solve one of our puzzles, you may e-mail us for the answer.

This months Edition “The Magic Carpet”

Directions: You have a 10 x 10 piece of carpet and a 9 x 12 room with a 1 x 8 aquarium in the middle of it. How can you completely fit the carpet in the room with only 1 cut with a pair of heavy duty scissors which results in 2 identically shaped pieces? There are no tricks here, it **IS** very possible.
